Dear Parents and Carers,

### Year 11 & 13 Revision and Study

Our Year 11s and 13s have been working brilliantly over the last few weeks in school. They have been taking part in a number of assessments that will continue after the Easter Holidays. I can only reiterate that we will do everything that we can to secure the evidence for every child to support their best possible outcomes at both GCSE and A level. We have told the students that we will use the time after these assessments to consolidate skills and knowledge required, close the gaps on these assessments and provide every opportunity to evidence their best grades. This time away from school over Easter is a brilliant time for students to revise and reflect on their upcoming assessments. At school, we have been supporting them with this process by consistently using a number of our RVHS revision and study strategies within our lessons and home learning assignments. Please click on the website link below to be taken to our 'Revision Resource' page to check out all of our updated PLCs (Personalised Learning Checklists), Revision resource templates and recordings of recent parent forums based on revision and study:

You will also see a Revision & Study section from Ms Larkin in this week's Parent Bulletin that may be helpful.

There will be also number of revision sessions for Y11 and Y13 during the first week of Easter. These sessions will be available to all students and will be online.
