## Examination Report for Summer 2020

## GCSE (Calculated Grades) Results

Our Year 11s were on course to achieve a set of grades that would have been the best ever and demonstrated improvements from the results in 2019 that were the best to date. However, using the evidence base identified, we were very happy with the grades that we put in and knew that we had the evidence to support it. The fact that the government then decided to go with those grades, we know that the outcomes are a true reflection of the cohort.

- $82 \%$ of students achieved a 'standard pass' in Mathematics, up from $78 \%$ in 2019.
- $69 \%$ of all students achieved a 'strong pass (Grade 5+) in English (either Language or Literature or both) up from $67 \%$ in 2019.
- 64\% of students achieved a 'good pass' in Mathematics, up from 55\% in 2018.
- A record-breaking $5 \%$ of all grades were awarded at Grade 9 - more than double the national average. 110 Grade 9s awarded (A** Grade equivalent) - 16 Biology, 12 Chemistry, 12 English, 12 Physics and 11 in Maths
- $37 \%$ of our students achieved the English Baccalaureate.

In the Core Subjects, the results were above the National Average for all subjects

RVHS (2020) and National (2019) at Grade 4+
RVHS National (2019)

There were also a number of outstanding results in other GCSE subjects including a number of subjects that made significant progress from 2019.

*Double Award so each student has two grades
The final column in the table above (Subject Progress Index) shows that in many subjects, students are making more progress than other students with the same starting point. The vast majority of subjects are positive; however, Drama, French, and Spanish shown to be approximately a third of a grade below. French and Spanish remain a focus as part of our School Improvement Plan, however, these grades need to be treated carefully as the measure is against other schools from this summer, so depending on the processes and evidence used for their grades, would affect this measure.

## Vocational Courses

All subjects had calculated grades above the national average (2019).

One of the areas of focus for us this year was on the Higher Ability based on their KS2 point score. In 2020, $87.7 \% 5+$ English and Maths compared with $75.8 \%$ in 2019. Furthermore, 74.3\% of Middle Ability students achieved a 4+ in English and Maths.

The graph below shows the spread of students against the National average.

## Indicative Progress 8 (based on 2019 measures)

The table below shows how the different groups performed based on progress. Maths was consistently positive and adding value to the students across all measures. We will continue to have a focus on boys, as they performed lower in all areas in comparison to the girls.

## Value Added

Looking at the Value-Added measures for Science, Languages and Humanities, it is pleasing to see that Humanities have improved from 0.222 in 2019 to 0.759 in 2020, Languages from -0.866 to 0.157 and Science from 0.124 to 0.527 . There is still work to do in Languages, but this is a much improved picture.

## Actual Results vs Final Predictions

As the final predictions are in general what were awarded by the exam boards, the analysis of this has limited value.

## A Level Results

- $49.7 \%$ of all A-Level grades were at $A^{*}$-B (compared to $34 \%$ in 2019)
- $81.9 \%$ of all A-Level grades were at $A^{*}$-C (compared to $66 \%$ in 2019)
- The ALPS Quality score is a 2 (Outstanding provider) having been a 6 in 2019
- Level 3 Value Added figure for A Level has improved again this year to an early indication of $\mathbf{+ 0 . 2 6}$ (compared to $\mathbf{- 0 . 0 1}$ in 2019)

The table above shows that over the four cohorts that we have had through the sixth form we have moved many areas that were underperforming and "blue Alps" to only one subject this summer (and that was one student who was completing her English Literature course). Many of the subjects performed well and achieved Alps grades of 2 to 4 . Our focus for the current Year 13s, is to close the gap in knowledge due to the time out of school and to achieve grades in line with what we saw in 2020.

High flying twins Mashrur and Maisha have secured their dreams of studying at Imperial College London and in the USA, respectively. Mashrur was awarded $A^{*}, A^{*}, A^{*}, A^{*}$ in $A$ levels Chemistry, Physics, Further Mathematics, and Mathematics and will be reading Mathematics and Physics at the University. Maisha will be attending Skidmore College in New York, having achieved $\mathrm{A}^{*}, \mathrm{~A}^{*}, \mathrm{~A}$ in Sociology, Religious Studies, and Psychology.

Alex Croll. also achieved $A^{*}, A^{*}, A^{*}, A$ in Further Mathematics, Mathematics, Physics and Geography and will be reading Mathematics at the University of Warwick.

Many of our Year 13 students were also highly successful and secured places at some of the best universities in the UK. To name a few:

- Mashrur K - Mathematics, Imperial College London
- Alex C - Mathematics, Warwick
- Maisha K - Skidmore College, New York
- Nicole C - Primary Education, Hertfordshire
- Maye D - Psychology, Liverpool John Moores
- Morgan H - Biology, Sussex
- Somaiya H - Biomedical Science, Dundee
- George L - Musical Theatre, Staffordshire
- Emma L - Geography, Liverpool
- Lyubka N - Psychology with Criminology, Sussex
- Millie S - History, Bristol
- Asha U - Politics and International Studies, Warwick

Others secured Higher Level Apprenticeships based on their A-Level results

- Sam C - HLA with EY
- Tanem I and Harry M - Sponsored degrees with Hill
- Hannah P - Legal Secretary Course
- Luke W - HLA with KPMG

All students worked incredibly hard and deserved their success. I would like to stress how pleasing the performance of our students is and I would like to thank the staff whose expertise and tireless support of the students has helped us achieve these results.
